

Field Day: Beneficial Microbes from Cultivation to Application

Saturday, April 6, 2024

9:45 a.m. to 5:00 p.m., followed by dinner
3012 Los Lentes Rd., Los Lunas, NM

In this free, hands-on workshop, learn about plant/microbe symbioses, learn how to cultivate beneficial microbes in Johnson-Su composting bioreactors, and learn how to use those microbes as part of an integrated system for restoring agricultural lands!

Dr. David Johnson and Hui-Chun Su-Johnson will be on-site to share their latest research results and answer questions.

Reserve your spot at
